NCHGW OU1 Response Summary 9 30 13 REVISED REDLINE.docx
NCHGW OU1 Response Summary 9 30 13 REVISED CLEAN.docx

Thanks Guy.

In the mean time, here is the revised responsiveness summary. This includes your comments and also my branch chief's. We're still waiting on comments from the office of regional counsel.

I attached a redline and also clean version .

Subject: New Cassel/Hicksville Groundwater Responsiveness Summary comments
Importance: High

Jennifer,

Comments on latest draft are:

- Comment 4 - SCGs in NYS means Standards, Criteria and Guidance. If comment used acronym incorrectly, their problem; if interpreted incorrectly by us/you, please correct. See <http://www.dec.ny.gov/regulations/61794.html>
- Comment 14 - I don't believe the word 'commenters' is found in the dictionary; recommend using 'comments' instead here and other places - not a deal breaker.
- Response to Comment 14 - might be necessary to say the best usage of Class GA waters is as a source of potable water supply. Class GA waters are fresh groundwaters. Other groundwater classes, GSA and GSB are not so designated as potable water supply sources. See §701.15 Class GA fresh groundwaters at <http://www.dec.ny.gov/regs/4592.html#15994> (Similar issue in Response to Comment 17)
- Numbering of comments seems incorrect starting with Comment #30 which is followed by Response to Comment #31
- Response to Comment 40 - the word 'oxidizing' is mis-spelled in the fifth sentence

No other comments from this office on RS.

I will be looking at other files to double check to make sure we have enough to forward the ROD for concurrence. If I have problems, I will let you know.

Please address, and send a final RS, along with a redline/strikeout version, for concurrence. Thanks.
